

ENTERPRISE SOCIAL ADOPTION PROGRAM

rhipe Solutions has developed this Enterprise Social Adoption Program to provide businesses with a sustainable process for the introduction and utilisation of Enterprise Social tools.

Based on real-world deployments, these programs accelerate the change management process which is essential when asking your employees to understand and buy in to the value of Enterprise Social tools like Yammer or Skype for Business. The basic 6-weeks of core activities can be scaled up or down depending on your businesses needs, resources and in-house skills.

The program covers all aspects of deploying social, including both technical and cultural challenges, and will help your people develop the skills required to build a thriving Enterprise Social network.

ENTERPRISE SOCIAL TOOLS CAN HELP YOUR BUSINESS IF...

CONNECTING WITH PEOPLE WHO CAN PROVIDE EXPERT POINTS OF VIEW AND SKILLS IS NOT EASY.

TRADITIONAL INFORMATION SYSTEMS LIKE EMAIL OVERLOAD YOUR USERS AND PERPETUATE SILOS.

LOCATING AND COLLABORATING ON DOCUMENTS OR PROJECTS IS TIME CONSUMING.

KNOWLEDGE IS LOST WHEN EMPLOYEES LEAVE.

ENGAGEMENT TIER	FEATURES
STARTER	Training, support and configuration
INTERMEDIATE	Preparation and roll out plan, use case development, training and support
ADVANCED	Preparation and roll out activities, 1 YamJam session, weekly reporting and recommendations, use case development, training and support
